

2007-03-15 Franz Holzinger <franz@fholzinger.com>  
\* fix bug with ORDER BY and missing table name in single view.

2007-03-14 Franz Holzinger <franz@fholzinger.com>  
\* publish code for Payment Library. Thanks to the main sponsors  
<http://gkmb.de/> and <http://www.pil.dk/>  
\* ###FE\_GROUP\_0\_TEMPLATE### if no frontend user has logged in

2007-03-08 Franz Holzinger <franz@fholzinger.com>  
\* check the installation of tt\_address if addresses for products are used

2007-03-02 Franz Holzinger <franz@fholzinger.com>  
\* enable language table for tt\_products by default

2007-02-23 Franz Holzinger <franz@fholzinger.com>  
\* tt\_address table can be used for manufacturer with the new address field  
of tt\_products

2007-02-09 Franz Holzinger <franz@fholzinger.com>  
\* fix bug 4940: \$TSFE->reqCHash() must not be called. The new parameter  
useCacheHash must be passed to all link functions in the fh\_library 0.0.16.

2007-01-16 Franz Holzinger <franz@fholzinger.com>  
\* fix CSS issue: check the recs array for \$this->infoArray in  
lib/class.tx\_ttproducts\_address.php  
\* related products can have additional allowed pages: pidsRelatedProducts  
\* enable separate templateFile for all main CODEs  
\* do not use begin\_at parameter in single view for related products

2006-12-29 Franz Holzinger <franz@fholzinger.com>  
\* fix bug with wrong object in basket item view

2006-12-27 Franz Holzinger <franz@fholzinger.com>  
\* fix bug with not used language table of tt\_products  
\* fix bug where only one category has been allowed for a filter of a  
product

2006-12-21 Franz Holzinger <franz@fholzinger.com>  
\* make related products in backend browsable from all pages

2006-12-17 Franz Holzinger <franz@fholzinger.com>  
\* fix bug 4505: set the ';' as a separator in the csv output correctly  
with 'CSVinOneLine=1'

2006-12-16 Franz Holzinger <franz@fholzinger.com>  
\* fix bug in single view: the itemnumber can contain a string - next and  
previous products did not get shown

2006-12-15 Franz Holzinger <franz@fholzinger.com>

\* fix bug with JavaScript parameter no\_cache not passed with requestURI for AJAX

2006-12-14 Franz Holzinger <franz@fholzinger.com>

\* new feature: debug setup to not delete the items in the basket after order. Use this only for testing purposes.

\* fix bug with no uploadable images in backend

\* fix bug 4659: only white page on backend

2006-12-12 Franz Holzinger <franz@fholzinger.com>

\* correction to category title with pages as categories

2006-12-08 Franz Holzinger <franz@fholzinger.com>

\* modify German CSS template

\* add image marker function

\* support older PHP versions

2006-12-01 Franz Holzinger <franz@fholzinger.com>

\* fix bug with not working update of basket

2006-11-29 Franz Holzinger <franz@fholzinger.com>

\* fix bug with SEARCH showing all products

2006-11-25 Franz Holzinger <franz@fholzinger.com>

\* if mode\_update=0 then items from the list must be added to the total amount and not update it

\* correct normal numbered images to have special configurations

\* use rootCategoryID only if it has a numeric value

2006-11-10 Franz Holzinger <franz@fholzinger.com>

\* correct error with missing CONSTANTS if no flexforms are used (zk\_products)

\* bug 4081: catlist with wrong HTML tags

\* correct error with XAJAX loosing the L parameter's language setting

\* consider the basket empty warning if pid\_list does not allow any item in the basket view

\* modified method API for static\_info\_tables

2006-10-30 Franz Holzinger <franz@fholzinger.com>

\* European Community VAT identifier codes

2006-10-11 Franz Holzinger <franz@fholzinger.com>

\* error correction: MEMO

\* error correction: order view missing parameter

2006-10-05 Franz Holzinger <franz@fholzinger.com>

\* error correction: 0004329: ###PRICE2\_TAX### does not work in Single View

2006-09-29 Franz Holzinger <franz@fholzinger.com>

- \* correct error with the SEARCH

2006-09-19 Franz Holzinger <franz@fholzinger.com>

- \* new feature: credit card table
- \* error corrections for search and list view

2006-09-12 Franz Holzinger <franz@fholzinger.com>

- \* some error corrections for the single view

2006-09-07 Franz Holzinger <franz@fholzinger.com>

- \* display special text in dependancy on the selected shipping item on the basket view

2006-09-06 Franz Holzinger <franz@fholzinger.com>

- \* listing of products with ###ITEM\_PRODUCT\_AND\_ITEMS### and ###ITEM\_PRODUCT### in the article list
- \* use new static\_info\_tables functionality with where clauses for country tables

2006-08-26 Franz Holzinger <franz@fholzinger.com>

- \* rename swords to sword because this is TYPO3 compliant and no cache is used here
- \* use global \$TYPO3\_CONF\_VARS before each include\_once - PHP 5.1 would otherwise not allow XCLASS for HtmlMail, DAM aso.
- \* correct error with wrongly used TAXincluded for payment
- \* consider parent marker elements
- \* use CATEGORY markers in single view
- \* enable settings of reduced variants for articles in comparison to products
- \* correct error with alwaysInStock
- \* filter for product list by fields
- \* feature: notification email when instock is below a certain value
- \* consider 0 values for payment/shipping
- \* change getMarkerFields to make ###BULKILY\_WARNING### appear in list view
- \* new classes for control and activities
- \* use static\_info\_tables 2.0.0 instead of sr\_static\_info

- \* use all fields from DAM as new markers with the field names as suffixes to the image markers
- \* enhances payment and shipping without taxes. For shipping consideration of the static\_countries table
- \* round the price of a single product always by 2 digits after the comma.
- \* correct error with missing product category in basket view
- \* new feature: replacePayment gives the shipping item the possibility to override all payment settings
- \* new display mode for the select box of categories

2006-08-15 Bjoern Kraus <kraus@phoenixwebsolutions.de>

- \* with "basketMaxQuantity" set to "inStock" you can limit the product count to the number in stock

2006-07-14 Franz Holzinger <franz@fholzinger.com>

- \* enable the altText.data and other image configuration by setting the cObj->alternativeData to the current row
- \* CSS ids for payment and shipping selector
- \* correct errors with wrong cache settings
- \* enable the salutation markers for the tracking user notification email
- \* correct errors with missing space before 'AND' in SQL queries
- \* new feature: related products
- \* ###EMAIL\_NEWUSER\_TEMPLATE### for some other example templates
- \* CSS shop template from Robert Markula
- \* new shipping fields for Paypal Payment Library extension
- \* correct errors with MEMO

2006-06-28 Franz Holzinger <franz@fholzinger.com>

- \* translation of some fields of a table in other fields
- \* correct error with wrong quotation in tracking
- \* catlist with option 'null' to use no predefined HTML

2006-06-22 Franz Holzinger <franz@fholzinger.com>

- \* missing marker substitution for first page in basket
- \* remove index pid from the basket's itemArray
- \* let the only index of the basket's itemArray be a sorting text which can be customized

2006-06-21 Franz Holzinger <franz@fholzinger.com>

- \* use table configuration module
- \* change comparison with limit to display ###LINK\_NEXT### in list view
- \* remove wrong quotations

2006-06-16 Franz Holzinger <franz@fholzinger.com>

- \* correct error with inStock

2006-06-14 Franz Holzinger <franz@fholzinger.com>

- \* connection to DAM for images
- \* correct <td> in list view

2006-06-09 Franz Holzinger <franz@fholzinger.com>

- \* extra configuration class

2006-06-07 Franz Holzinger <franz@fholzinger.com>

- \* products\_info\_x to set activity in order to consider Internet Explorer when a basket image is used
- \* do not show hidden products
- \* improvements regarding the coding guidelines

2006-05-30 Franz Holzinger <franz@fholzinger.com>

- \* category menu which shows submenus on mouse click
- \* correct error with tracking code
- \* change orderBy configuration
- \* correct error to show multiple images for a product
- \* correct error with duplicate ending </ul> in catlist view
- \* correct list to use the products language table in list view
- \* improve article list view
- \* single view for articles

- \* consider basketMaxQuantity also when new items are put into the basket
- \* category list considers subcategories
- \* use cHash in all links in the list view and category list view
- \* CSV error correction: replace '\n' with chr(13)
- \* correct error with unset Frontend Admin password
- \* selectDescription into ext\_typoscript\_setup.txt

2006-04-08 Franz Holzinger <franz@fholzinger.com>

- \* do all email stuff in the class.tx\_ttproducts\_email\_div.php
- \* correct uid and category in the list view

2006-04-06 Franz Holzinger <franz@fholzinger.com>

- \* turn off BASE64 encoding for emails
- \* configuration via ext\_conf\_template.txt
- \* do not use fh\_library and table in ext\_localconf.php if these extensions have not been installed

- \* add order by categories to the products list
- \* correct error with HTML emails

2006-03-23 Franz Holzinger <franz@fholzinger.com>

- \* make category subtitle visible in backend
- \* LISTARTICLES for a listing of articles
- \* make usage of the Payment Library extension
- \* category list with select boxes displays content using JavaScript and

AJAX

- \* Payment Gateways with use of paymentlib - handleLib payment settings
- \* editLockedLoginInfo to still change some fields of the frontend user for

the order

2006-03-16 Franz Holzinger <franz@fholzinger.com>

- \* use only not deleted categories
- \* extend the categories display to work with select box and pages as categories
- \* correct error with not used tax field

2006-03-08 Franz Holzinger <franz@fholzinger.com>  
\* correct error with single view which had shown always the same product  
\* change link parameter to single view from 'tt\_products' to  
'tx\_ttproducts\_pil['single']'  
\* attention: all the links have been changed! --> return to 'Beta' state

2006-03-04 Franz Holzinger <franz@fholzinger.com>  
\* correct errors in list view  
\* undo sorting of codes to make SEARCH possible on the beginning  
\* activate description field for select box

2006-03-02 Franz Holzinger <franz@fholzinger.com>  
\* make listings in list view possible without pid in OrderBy

2006-03-01 Franz Holzinger <franz@fholzinger.com>  
\* make image files larger than 1 MByte possible  
\* the category list uses template subparts  
\* pricecalc can consider the uid

2006-02-27 Franz Holzinger <franz@fholzinger.com>  
\* list of categories  
\* make it ready for TYPO3 4.0  
\* new class for variants

2006-02-10 Franz Holzinger <franz@fholzinger.com>  
\* the check of available frontend users must consider the pid  
\* send password of new created frontend users via email  
\* basketMaxQuantity to set the maximum quantity for an item in the basket  
\* quantityIsFloat to make it possible to use float values in the basket  
\* new hooks in the basket view

2006-02-02 Franz Holzinger <franz@fholzinger.com>  
\* check requiredInfoFields

2006-02-01 Franz Holzinger <franz@fholzinger.com>  
\* correct error with multiple language table  
\* correct error with backPID in single view

2006-01-31 Franz Holzinger <franz@fholzinger.com>  
\* new file pil/static/old\_style/setup.txt for CSS\_DEFAULT\_STYLE

2006-01-30 Franz Holzinger <franz@fholzinger.com>  
\* rename class.tx\_ttproducts\_view\_div.php into  
class.tx\_ttproducts\_marker.php  
\* rename class.tx\_ttproducts\_pricecalc\_div.php into  
class.tx\_ttproducts\_pricecalc.php  
\* rename class.tx\_ttproducts\_tracking\_div.php into  
class.tx\_ttproducts\_tracking.php  
\* rename class.tx\_ttproducts\_billdelivery\_div.php into

class.tx\_ttproducts\_billdelivery.php  
\* rename class.tx\_ttproducts\_currency\_div.php into  
class.tx\_ttproducts\_currency\_view.php  
\* rename class.tx\_ttproducts\_memo\_div.php into  
class.tx\_ttproducts\_memo\_view.php  
\* create class.tx\_ttproducts\_order\_view.php from  
class.tx\_ttproducts\_order.php  
\* create class.tx\_ttproducts\_basket\_view.php from  
class.tx\_ttproducts\_basket.php  
\* hooks and TS configurable product table

2006-01-27 Franz Holzinger <franz@fholzinger.com>  
\* usage of the other ###FORM\_URLxxx### markers everywhere to control the  
next page  
\* saluation field and other fields for sys\_products\_orders  
\* selectable country field with static\_info\_tables information

2006-01-20 Franz Holzinger <franz@fholzinger.com>  
\* convert language files into Unicode-UTF8 XML files  
\* correct error with missing products in list view  
\* list items with checkboxes for single products

2006-01-02 Franz Holzinger <franz@fholzinger.com>  
\* correct error with ###PRICE\_SHIPPING\_TAX### and  
###PRICE\_SHIPPING\_NO\_TAX###  
\* The prices in the payment shipping pricecalculation always include the  
tax
